REPORT TO UNITHOLDERS

The directors of BWP Management Limited, the responsible entity for the BWP Trust, are pleased to present this interim report to unitholders covering the financial results and activities of the Trust for the six months to 31 December 2014.

Activities during the period included; completion of three Bunnings Warehouse developments in Queensland, announcement of the acquisition of a Bunnings Warehouse development site in Australind in Western Australia, agreement to upgrade the Bunnings Warehouse store in Lismore in New South Wales, completion of 13 market rent reviews, repricing of existing bank facilities and revaluation of the fair value of the property investment portfolio.

On 27 January 2015, the proposed appointments of Erich Fraunschiel and Michael Steur as non-executive directors of the responsible entity were announced. The appointments became effective on 1 February 2015.

Mr Fraunschiel, a professional non-executive director since 2002, has held board positions with a number of listed and unlisted companies. He is currently a director of WorleyParsons Limited, a global engineering, project management and advisory company. Past directorships include Woodside Petroleum Limited, Wesfarmers General Insurance Limited, Rabobank Australia Limited, Rabobank New Zealand Limited, West Australian Newspaper Holdings Limited and Foodland Associated Limited. Until his retirement in 2002, Mr Fraunschiel was a senior executive of Wesfarmers Limited, including Executive Director and Chief Financial Officer. Prior to this he was involved in investment banking, project lending and venture capital investment. It is intended that Mr Fraunschiel will succeed Mr John Austin as Chairman following Mr Austin's retirement in late 2015.

Mr Steur, an experienced valuer by background, has over 30 years general property services experience, primarily in New Zealand and Australia, and more recently in Asia, including Hong Kong, China, Japan, Malaysia and Singapore. Between 1988 and 2009, he was director of Richard Ellis Ltd New Zealand (now CBRE). He moved to Sydney in 2001 to take control of CBRE's Australian and New Zealand valuation and advisory business. In 2009, he was appointed Executive Managing Director of CBRE's Asia Pacific Valuation and Advisory service business. He retired from this role in June 2014 to pursue non-executive Board opportunities. Mr Steur has been a non-executive director of the New Zealand listed Kiwi Property Group Limited since 2010.

FINANCIAL RESULTS

FINANCIAL PERFORMANCE

Total income for the period was \$71.2 million, an increase of 19.1 per cent over the previous corresponding period. The increase in income was due to growth of the property portfolio, mainly from net acquisitions and improvements to investment properties (collectively adding approximately \$9.7 million) and rent reviews (adding approximately \$1.9 million). Refer to Property portfolio and Rent reviews sections for further details.

Finance costs of \$13.3 million were 40.2 per cent higher than the previous corresponding six months, due to higher borrowing levels, partially offset by a lower weighted average cost of debt. The average level of borrowings was 64.8 per cent higher than the previous corresponding period (\$451.6 million compared with \$274.1 million). The weighted average cost of debt for the half-year (finance costs less finance income as a percentage of average borrowings) was 5.79 per cent, compared to 6.65 per cent for the previous corresponding period. The lower cost of debt was the result of higher utilisation of debt facilities and reductions in the rate of bank fees and margins during or since the previous corresponding period. Average utilisation of debt facilities (average borrowings as a percentage of average facility limits) for the period was higher than for the previous corresponding period (75.3 per cent compared with 63.7 per cent).

Other operating expenses of \$3.3 million were in line with the previous corresponding period.

FINANCIAL POSITION

At 31 December 2014, the Trust's total assets were \$1,926.0 million, with unitholders' equity of \$1,392.2 million and total liabilities of \$533.8 million.

The underlying net tangible asset backing of the Trust's units increased by 11 cents per unit during the period, from \$2.07 per unit at 30 June 2014, to \$2.18 per unit at 31 December 2014. This increase was the result of the net unrealised gains on revaluation of investment properties (refer to the Revaluations section), and capital expenditure incurred during the period.

INTERIM DISTRIBUTION

For the half-year the Trust reported a distributable profit of \$49.1 million, an increase of 14.6 per cent on the previous corresponding period, primarily due to increased property revenue from completed development properties acquired in September 2013 and a lower average cost of debt.

An interim distribution of 7.67 cents per ordinary unit has been declared. This is 12.3 per cent higher than the previous corresponding period (6.83 cents per unit), reflecting the increase in property income over the previous corresponding period and the dilutive impact on the prior corresponding distribution, of the equity raising part way through that period.

There were approximately 2.0 per cent more units on issue at 31 December 2014 than at 31 December 2013.

The interim distribution will be made on 26 February 2015 to unitholders on the Trust's register at 5:00 pm on 31 December 2014.

Units issued under the Trust's distribution reinvestment plan ("DRP") in respect of the interim distribution will be issued at \$2.8137 per unit, representing the volume weighted average price of the Trust's units for the 10 trading days following the record date, without the application of a discount.

CAPITAL COMMITMENTS

Agreement to expand Bunnings Warehouse Lismore, New South Wales

In November 2014, the Trust committed to expand its Lismore Bunnings Warehouse, New South Wales, at a cost of \$4.6 million. The annual rental will increase by approximately \$0.3 million. Following completion of the expansion, the parties will enter into a new 12 year lease of the Bunnings Warehouse with four, five year options, exercisable by Bunnings. The rent will increase by a fixed three per cent per annum. At the end of the initial term and at the exercise of each option by Bunnings, the rents are subject to a market review. Market rent reviews are subject to a 10 per cent cap, meaning the rent cannot increase more than 10 per cent above the preceding year's rent, and a 10 per cent collar, meaning that the rent cannot fall more than 10 per cent below the preceding year's rent.

Agreement to acquire Bunnings Warehouse development site, Australind, Western Australia

In November 2014, the Trust committed to acquire a Bunnings Warehouse development site in Australind, Western Australia for a purchase price of \$8.3 million (plus acquisition costs of approximately \$0.5 million). Settlement of the property is expected to occur in April 2015, following subdivision and the issue of the certificate of title. The development is expected to be completed by 30 June 2015 at a cost of \$9.6 million. The commencing annual rental income of the property will be approximately \$1.3 million.

ANNUAL ESCALATIONS

Fifty two of the leases of Trust properties were subject to annual fixed or CPI reviews during the period. The weighted average increase in annual rent for these 52 leases was 3.0 per cent.

² The market rent review was due during the year ended 30 June 2014, but the outcome was only finalised during the half-year ended 31 December 2014.

LIKE-FOR-LIKE RENTAL GROWTH

Twenty eight market rent reviews were finalised during the last 12 months (13 since 30 June 2014), of which 19 related to the 2013 calendar year, collectively resulting in an average increase of 5.5 per cent.

Excluding rental income from properties acquired or expanded during or since the previous corresponding period, rental income increased by approximately 2.7 per cent for the 12 months to 31 December 2014 (compared to 3.8 per cent for the 12 months to 31 December 2013). The result for the previous corresponding period was disclosed as a 2.8 per cent increase and this has been updated following the finalisation of 19 market rent reviews during the 12 month period to 31 December 2013.

The six unresolved market reviews at 31 December 2014 are not included in the calculation of like-for-like rental growth for the year.

REVALUATIONS

During the half-year the Trust's entire investment property portfolio was revalued. Property revaluations were performed by independent valuers for 12 properties during the period. The remaining 71 properties were subject to directors' revaluations. Following the revaluations, the Trust's weighted average capitalisation rate for the portfolio at 31 December 2014 was 7.41 per cent (30 June 2014: 7.59 per cent; December 2013: 7.71 per cent).

The value of the portfolio increased by \$81.1 million to \$1,900.1 million during the half-year, following capital expenditure of \$59.2 million, the sale of four properties for net sale proceeds of \$46.3 million and a net revaluation gain of \$68.2 million at 31 December 2014. The net revaluation gain was due to growth in rental income and an average decrease in capitalisation rates across the portfolio during the half-year.

¹ Amount drawn includes accrued interest and borrowing costs of \$0.3 million as at 31 December 2014 on bank debt facilities.

² In January 2015 the \$110 million Commonwealth Bank of Australia facility was extended for a further year to 31 July 2018.

The weighted average duration of the facilities at 31 December 2014 was 3.3 years.

The Trust's gearing ratio (debt to total assets) at 31 December 2014 was 23.4 per cent (30 June 2014: 24.4 per cent, December 2013: 19.8 per cent) which is in the Board's preferred range of 20 to 30 per cent. Covenant gearing (debt and non-current liabilities as a percentage of total assets) was 24.1 per cent (30 June 2014: 25.0 per cent, December 2013: 20.4 per cent), well below the 45 per cent maximum allowable under banking facilities.

The Trust has a policy of hedging the majority of its borrowings against interest rate movements, to ensure stability of distributions. At 31 December 2014, the Trust's interest rate hedging cover was 90.8 per cent of gross borrowings (excluding accrued interest and borrowing costs), with \$210.0 million interest rate swaps and the \$200.0 million fixed rate corporate bond against gross borrowings of \$451.5 million. The weighted

REPORT TO UNITHOLDERS CONTINUED

average term to maturity of hedging was 3.25 years (30 June 2014: 3.75 years, December 2013: 3.32 years) including delayed start swaps.

The Trust's distribution reinvestment plan was active for the interim distribution and applied to approximately 15.3 per cent of issued units.

OUTLOOK

Property income for the second half of 2014/15 will include a full six months' rental income from the three Bunnings Warehouse developments completed during the first half of 2014/15.

Rent reviews are expected to contribute incrementally to property income for the half-year to 30 June 2015. There are 43 leases to be reviewed to the CPI or by a fixed percentage increase during the second half of 2014/15. There are also 10 market rent reviews of Bunnings Warehouses, of which three relate to the year ending 30 June 2014, to be completed by the end of this financial year.

The second half distribution is expected to be approximately 8.1 cents per unit, depending on rent review outcomes for the balance of the financial year.

As a result of more competitively priced debt funding and increased utilisation of existing facilities, the Trust's average cost of debt (being the net finance costs, including interest and bank fees and margins, as a percentage of average borrowings) should reduce further to approximately 5.4 per cent for the six months ending 30 June 2015 on the basis of interest rates remaining at around current levels.

The responsible entity will continue to look to acquire quality investment properties that are value accretive for the Trust. As part of ongoing active portfolio management, the responsible entity will also continue to assess potential divestments where properties have reached optimum value.

bwp TRUST**NOTES TO THE FINANCIAL STATEMENTS****FOR THE HALF-YEAR ENDED 31 DECEMBER 2014**

1. BASIS OF PREPARATION OF THE HALF-YEAR FINANCIAL STATEMENTS

The financial statements of BWP Trust ("the Trust") for the half-year ended 31 December 2014 were authorised for issue in accordance with a resolution of the directors on 11 February 2015. The Trust was constituted under a Trust Deed dated 18 June 1998 as amended and is managed by BWP Management Limited. Both the Trust and the responsible entity are domiciled in Australia.

The half-year financial statements are a general purpose financial report which:

- has been prepared in accordance with the requirements of the Trust's constitution, the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*;
- has been prepared by applying the same significant accounting policies as those applied by the Trust in its financial statements for the year ended 30 June 2014;
- has been prepared on an historical cost basis, except for investment properties and derivative financial instruments, which have been measured at their fair value;
- is presented in Australian dollars, the Trust's functional currency, and all values are rounded to the nearest thousand dollars (\$'000) under the option available to the Trust under ASIC Class Order 98/100, unless otherwise stated; and
- does not include all notes of the type normally included within the annual financial statements and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Trust as the full financial statements.

It is recommended that the half-year financial statements be read in conjunction with the annual financial statements of the Trust as at 30 June 2014 which are available upon request from the Trust's registered office at Level 11, 40 The Esplanade, Perth WA 6000 or at bwptrust.com.au and considered together with any public announcements made by the Trust during the half-year ended 31 December 2014 in accordance with the continuous disclosure obligations arising under the *Corporations Act 2001*.

During the six months to 31 December 2014, twelve independent property valuations were performed.

Properties that have not been independently valued as at a balance date are carried at fair value by way of directors' valuation.

All investment properties of the Trust have been categorised on a Level 3 fair value basis under AASB 13 *Fair Value Measurement*, as some of the inputs required to value the properties are not based on "observable market data". For full details of the methodology and the significant assumptions/inputs used please refer to the 30 June 2014 annual financial statements.

bwp TRUST

NOTES TO THE FINANCIAL STATEMENTS

FOR THE HALF-YEAR ENDED 31 DECEMBER 2014

8. SEGMENT REPORTING

The Trust operates wholly within Australia and derives rental income from investments in commercial property.

9. FINANCIAL INSTRUMENTS

(a) Fair value

The fair values and carrying amounts of the Trust's financial assets and financial liabilities recorded in the financial statements are materially the same with the exception of the following:

	Dec 2014 \$000	Jun 2014 \$000
Corporate bonds – book value	(199,656)	(199,394)
Corporate bonds – fair value	(207,385)	(201,727)

The methods and assumptions used to estimate the fair value of financial instruments are as follows:

Loans and receivables, and payables and deferred income

Due to the short-term nature of these financial rights and obligations, their carrying amounts are estimates to represent their fair values.

Cash and short-term deposits

The carrying amount is fair value due to the liquid nature of these assets.

Bank loans and corporate bonds

Market values have been used to determine the fair value of corporate bonds using a quoted market price. The fair value of bank loans have been calculated discounting the expected future cash flows at prevailing interest rates using market observable inputs.

Interest rate swaps

Interest rate swaps are measured at fair value by valuation techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly (Level 2).

(b) Financial risk management - credit risk

During the period \$nil (2013: \$302,500) of rental income was deemed non-recoverable and has been written off. There are no other allowances for impairment in respect of receivables during the current or previous period.

Other aspects of the Trust's financial risk management objectives and policies are consistent with those disclosed in the 30 June 2014 annual financial statements.

10. CAPITAL EXPENDITURE COMMITMENTS

	Dec 2014 \$000	Jun 2014 \$000

The directors of BWP Management Limited (the Responsible Entity) are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Trust's financial position as at 31 December 2014 and its performance for the half-year ended on that date; and complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*. As auditor of BWP Trust, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

INDEPENDENCE

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
